

Commitment to manufacturing deadlines

Our commitment to empowerment in decision-making and action has a **very positive impact** on both the process and the end result. This means that we are able to increase our **reaction capacities**, improve the speed of our deliveries and **amplify our flexibility** to be able to adapt to different projects, no matter how complex they may be. Thanks to this **independence and efficiency**, we achieve a unique level of personalisation, a fairly high level of adaptability and, in essence, we offer all the **service and attention** required by the project submitted, without intermediaries or third parties involved. We offer **the best delivery times** that can be carried out according to each project. Below are the following categories:

ANNEXES

agile

General notes

Acristalia commits itself to meeting the maximum deadlines specified for each type of order, **provided that no external contingency has occurred**. These conditions are subject to change, revision or improvement if the company deems it appropriate, with prior notice to customers with orders already accepted.

Orders with a surface area of more than 60 m² may not be eligible for this deadline policy.

The list of basic finishes is subject to change at any time. **Please refer to this document online for the latest version.**

* The colors of this digital sample of finishes differ from the actual chart, so they can only be taken as a reference.

General comments

The maximum deadlines established for each type of order are the deadlines that Acristalia commits to comply with, **provided that there is no contingency external to the company**. These conditions are subject to change, revision or improvement if the company considers it necessary. Orders with a surface area of more than 60 m² **may not be subject to this policy**. The list of basic finishes is subject to change at any time. **Please refer to this online document for the latest version.**
